ABOUT ME

Throughout my career, I've worked in sectors like renewable energy, market analysis, and digital mapping, contributing to multidisciplinary projects with innovative, spatial-based solutions.. I enjoy transforming data into actionable insights, developing geospatial tools, optimizing processes through GIS technology, and working with 3D geospatial data to create more accurate and immersive analyses.

PROFESSIONAL EXPERIENCE

GIS Consultant

United Nations (2026- Present)

- Technical and strategic consulting in the development of 3D GIS products.
- Creation and publication of 2D and 3D web maps, including operational maps and base cartography.
- Processing of drone imagery for the generation of 3D meshes as part of the Digital Twin service.
- Development of the content governance strategy for the geoportal.

Brownfield GIS Business Lead

Capital Energy/Kynegos (2023 - 2026)

- Management and administration of the corporate geospatial database and ArcGIS Enterprise environment.
- Ensuring optimal system performance and high availability.
- Developing, enhancing, and evolving GIS solutions to align with organizational needs.
- Coordinating across departments to identify and prioritize geospatial requirements.
- Providing strategic support through geospatial analysis and specialized reporting.

GIS Technician - Business Development

Esri Spain (2021 - 2023)

- Worked extensively with 3D data across multiple projects, creating and preparing both 2D and 3D datasets.
- Produced cartographic content for the Esri Living Atlas, ensuring high-quality, ready-to-use spatial products.
- Served as a Business Development Technician, supporting strategic initiatives involving Esri technology.
- Developed workflows using the ArcGIS ecosystem to streamline analysis and data management.
- Supported projects in diverse fields, applying Esri tools to deliver effective geospatial solutions.

GIS Analyst - Business Development

JeffApp (2019 - 2021)

- Conducted market studies using sociodemographic data to support franchise expansion in multiple countries.
- Managed the maintenance and updating of cartographic databases for various Jeff brands.
- Implemented automation of cartographic processes to improve efficiency and data consistency.

EDUCATION

Lisa Institute

International analysis and geopolitics

Esri Spain | October 2020 - April 2021

Master's in Esri Technology

During this master's program, I studied Esri technology in depth and developed several 2D,3D and Utility Network projects, gaining solid practical experience with the full ArcGIS ecosystem.

Polytechnic University of Valencia | September 2014 - September 2019

Bachelor 's Degree in Geomatics Engineering and Surveying

SKILLS

- GIS
- Data Analysis
- Programming

LANGUAGES

- Spanish/Valencian - Native
- English - B2
