

JOSE LUIS PASTOR

GIS Specialist • • •

ABOUT ME

Throughout my career I have worked in sectors like renewable energy, market analysis and digital mapping, contributing to multidisciplinary projects with innovative, spatial-based solutions. I enjoy transforming data into actionable insights, developing geospatial tools, optimizing processes through GIS technology and working with 3D geospatial data to create more accurate and immersive analyses.

PROFESSIONAL EXPERIENCE

GIS Consultant

United Nations · 2026 – Present

- Technical and strategic consulting in the development of 3D GIS products.
- Creation and publication of 2D/3D web maps, including operational maps and base cartography.
- Drone imagery processing to generate 3D meshes for the Digital Twin service.
- Development of the content governance strategy for the geoportal.

Brownfield GIS Business Lead

Capital Energy / Kynegos · 2023 – 2026

- Management of the corporate geospatial database and ArcGIS Enterprise environment, ensuring performance and high availability.
- Developing, enhancing and evolving GIS solutions aligned with organizational needs.
- Cross-department coordination to identify and prioritize geospatial requirements.
- Strategic support through geospatial analysis and specialized reporting.

GIS Technician · Business Development

Esri Spain · 2021 – 2023

- Creation and preparation of datasets across multiple business-oriented projects, turning data into analysis-ready information.
- Production of cartographic content for the Esri Living Atlas.
- Business Development Technician for strategic initiatives involving Esri technology.

GIS Analyst · Business Development

JeffApp · 2019 – 2021

- Market studies with sociodemographic data supporting franchise expansion in multiple countries.
- Maintenance and updating of cartographic databases for the Jeff brands.
- Automation of cartographic processes, improving efficiency and data consistency.
